Dear Families,

I miss you all very much! I've been able to see some pictures of some of you through emails! I've enjoyed seeing all of the hikes and walks and song/dance making that has been happening. It sure is heartwarming and grounding to keep connected during this time apart.

I want to give a big thank you to the SES teachers that have been reaching out to families and provide some ideas for learning enrichment. Our "Learning at Home" website is up and running. You can access the site though the front page of our school webpage ( [www.shutesburyschool.org](http://www.shutesburyschool.org)). We are updating ideas and information on that page so that we can reduce the amount of direct emails to you daily. I hope you are enjoying practicing your Performing Arts dancing with Ms. Samm's website and answering Jessica's Trivia of the Day! Remember, you all can track your Moose Miles ( form on the website!) from all the walks and hikes you are doing and they will count towards your miles at school.

We wanted to reach out to families to get information around technology access for families. **We are asking for families to take 3 minutes to fill out our survey around technology here: <https://forms.gle/uWHFLiLwTvWuWmB48>** . This will help us understand the access and connectivity of our community and will help us as we think about planning and learning in the days to come. Thank you in advance for filling out this important survey.

Thank you to all of the caregivers in the community for your kindness, support and communication. You are all doing a great job keeping your kids happy and safe! This week has felt more like a month, hasn't it? Please reach out to the school faculty if you are in need of more support.

I wish that I was able to spend this afternoon with the students in our Friday Assembly. I would have loved to see all of the crazy hats and sunglasses! I will send along a picture of me in my crazy hat and sunglasses so you can have a chuckle!

I will be in touch more next week. Thank you for filling out the survey!

Jackie
