

Developmental Screenings For 3, 4 & 5 Year Olds in the community

In Shutesbury, developmental screening is available through the school as a first step in a process intended to find children in need of special services and to plan for meeting those needs. Screening focuses on a child's growth in a number of areas, such as large and small muscle control, speech/language development and concept development. This activity takes about 40 minutes and consists of a number of games that children typically enjoy playing. The screening gives an indication of whether or not a child's skills are developing within the typical range.

If you have any questions or concerns about your child's development, would like more information, or wish to set up an appointment, please call Grace Griecci, Shutesbury Elementary School's Preschool Teacher at 413-259-1212 X140 or email her at grieccig@shutesburyschool.org

This service is available to all families in town, including those with a child not already enrolled in the school's preschool program.
