Jeanine Fitzgerald, M.A. is a Certified Human Behavior Consultant, and a national speaker in the areas of program assessment, program development, supervision, family-focused interventions, child development services, parent support groups and training, as well as professional development seminars.

Have you ever heard someone say, *"What part of no don't you understand?"* or *"Because I said so, that's why!"* Or maybe, you have thought there has to be a better way to get our children to listen to us. This session explores three choices about teaching and parenting styles and their effects on children. Particular emphasis will be placed on developing a personal approach to using an authoritative style.

Funded through the Community Network for Children a program funded by the CFCE grant from the MA Department of Early Education and Care, and donations.
